MEMORIAL
LIBRARY

Schreiner Summer Library features Music and Rhythm

Music brings people together; throughout history and around the world, music has been a special part of people's lives and it continues to play a fundamental role in celebrations, self-expression, communication, connection, and daily life. Through books, games, musical experiences, and STEAM (science, technology, engineering, art, and math) activities, participants will interact with music and sound in a wide variety of ways. Learn about different cultures' ways of creating music, try your hand at making an original instrument, find out about the science behind the music you love, and rock your way all the way around the world with hands-on activities for children and families.

SUMMER READING LOGS are for everyone. READING LOGS are available at the front desk for CHILDREN, TEENAGERS, AND ADULTS. Fill them out for a chance to WIN A UKULELE. We have one for every age group!
